LIFE IN SWEDEN.

IJ Mary Howitt's New Work, entitled "THE NEIGHBORS, a Tale of Every Day Life," translated from the Swedish, has just been published in a double octavo number of the NEW WORLD, No. 30 Ann st. for the incomsiderable sum of Eighteen Pence. It is one of the most delightful books we have ever read, being a tale of domestic life of deep and pervading interest-the scenes, manners and customs of which are entirely new, and depicted with wonderful skill and force. The story is one which cannot fail to improve and soften the heart. It is peculiarly fitted for pure-minded and scrupulous persons, who generally object to the kind of intellectual aliment supplied by works of romance. We therefore hesitate not to recommend it warmly to the lovers of good morals.

The annual interest on the State debt of Ohio is between \$950,000 and \$1,000,000. To meet this, in addition to the State income from lands, dividends, &c. a tax of 23 mills has been laid. This is considered amply sufficient to meet the interest. The public works are all completed excepting the Miami Canal extension. The income from these works is \$400,000. The State has also a large and valuable body of land yet to be sold for the benefit of the public works. The domestic debt of the State is about \$750,000.

The last Peoria Register asserts that Mr. Ryan, the newly elected Senator from Lasaile county, is in New-York ascertaining whether capitalists can be procured who will engage in the undertaking to complete the canal. Mr. Ryan, in a letter to a friend in Ottowa, writes: "So sanguine have the eapitalists of this city become

that the plan will work, that they assert the money can be raised in this city to complete the canal." We know, in regard to the above, that Mr. Ryan has been in negotiation with some of our moneyed men upon this subject, and that he has received assurances that money can

be raised here to complete the Canal, upon certain conditions. Mr. Ryan left for home some time since. Governor Morehead, of North Carolina, in his message alludes to the resumption of specie payments by the Banks of the State last summer. It is believed that they will be able to sustain themselves in future. The want of a National Bank, however, is declared to be urgent-the present condition of Exchanges being highly untavolable to the

people of the State. The Banks are compelled to limit their circulation within very restricted bounds. Altered five dollar bills purporting to be on the Granite Bank, Augusta, are in circulation at Portland, Me. At Bos ton, counterfeit five dellar bills on the Kenduskeag Bank

have been issued. The Troy Bank refuses to receive Spanish quarters at more than 23 cents, Spanish eighths at more than 11 cen.s. and Spanish sixteenths at more than 4 cents.

The Westchester Register says that the report of the sus pension of the Luncaster Bank grew out of the fact that it refused to pay specie to Brokers. We cannot perceive the distinction.

D' What is Man, that thou art mindful of him ? ?- This is the language of inspiration, equally applicable to man in his physical as well as moral state, and exhibits in concise words the humility that should ever accompany the consciousness of man's inability to help himself while laboring under the innumerable mental and bodlly evits to which his nature is exposed. Health in its full and fresh enjoyment is sought after with a capidity commensurate with its necessities; and the question is what can improve the constitutional and physical condition of man. How many have deceived the public by fictitious pretensions, have acquired fortunes by deceptions, and ruined thousands by a flagitious course of absolute fraud upon men's credibility!

The present trial is to try the question. Mr. Dellue (firm Souillard, Dellue & Co.) and other witnesses, stated jujube paste to be composed of jujube (a pectoral fruit resembling plum) gom arabic, sugar and water-and the other paste to be gum arabic, sugar, water and balsam tolu, and to be used in coughs and colds. T Orlando Fish, Fashionable Hatter, 187 Broad vay, would inform the gentlemen of New-York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction o having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by

the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at \$3 50, and warrants them equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4.50. These he recommends as equal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the chapter or the best Hat is desired, the inquirer will here be satisfied Try him. (s2611) O. FISH, 157 Broadway.
